INTRODUCTION

To perform maintenance on the motorbike, tools are required. There is a storage compartment located on the motorbike that will hold the necessary tools. You can also add to this arsenal by adding others.

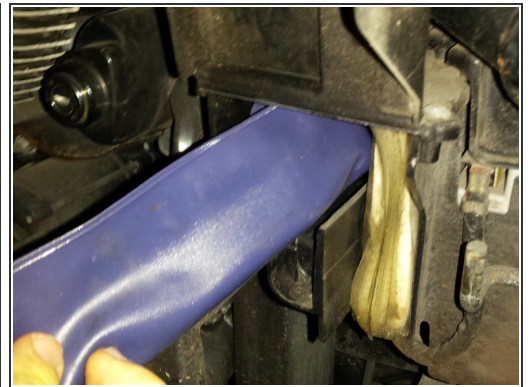

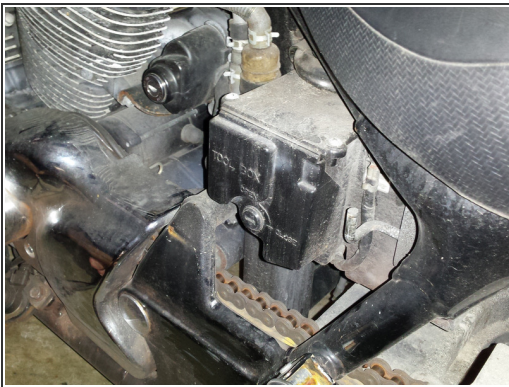

NOTE: The tool box is located on the left side of the bike (opposite the tail pipe)

Step 1 — Remove outer casing

- Remove the plastic covering, located on the left side of the bike, by pulling the piece straight off the bike.

Step 2 — Open toolbox

- The tool box is located under the panel.
- Using the key to the motorbike, unlock the tool box.
- Remove the plastic bag inside holding the tools needed for basic maintenance for the motorbike.

To reassemble your device, follow these instructions in reverse order.
